---

*Ornamental Plants Plus 3.5* is a powerful information and horticultural reference tool that provides unlimited benefits as a training and promotional resource. This unique CD-ROM offers information about:

- trees and shrubs (Zones 6 and colder)
- vines
- groundcovers
- herbaceous annuals and perennials
- solutions to plant problems
- plant care instructions
- cultural information
- selection criteria
- insects and diseases
- problem diagnosis
- archives of *CAT Alerts*
- and access to Internet resources.

Other features include over 2,500 horticultural topics and 4,000 full-color pictures and slides which allow you to print images from a color printer for retail or customer use.

**Landscape professionals:** use *Ornamental Plants Plus 3.5* to select proper plants for specific locations and conditions ensuring hardiness and viability. Used in conjunction with MNLA's *Effective Landscaping* booklets, *Ornamental Plants Plus 3.5* will help you market your services through high-power sales presentations — print indepth horticultural information and color images at your business location or from a laptop computer.

**Retailers:** save time and money with *Ornamental Plants Plus 3.5* — create signs, point-of-purchase displays and posters; train new employees; and provide information to inquisitive customers.

**Growers:** make confident and accurate decisions with *Ornamental Plants Plus 3.5* — information on plant cultural practices and disease identification and treatment suggestions are right at your fingertips.

Shouldn't you include *Ornamental Plants Plus 3.5* in your reference library today? We make it easy with our 30-day no-risk guarantee — if you're not 100 percent satisfied, return it within 30 days of purchase for a full refund.

## Minimum Hardware Requirements

We recommend a computer capable of running Windows 95, 98 or NT software; a double-speed CD-ROM or faster; 32 megabytes of RAM, and the most current version of Internet Explorer or Netscape.
