

January 11, 2021 Covid-19 Vaccine Updates

Good Afternoon,

As your business resource on all COVID-19 information please find attached the summary of the current Michigan phases for the COVID-19 vaccination schedule. Please note that Michigan has a decentralized public health system which means that each local public health department is determining who, when, and how to administer the vaccine—this is not being determined at the State level.

Please take care,

Amy
